DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jen-Feng Lee on July 31, 2008.

The application has been amended as follows:

Cancel claims 1-5.

In claim 6, line 2, "a. A" has been changed to -- a --.

In claim 6, line 3, "b. A" has been changed to -- a --.

In claim 6, line 6, "c. A" has been changed to -- a --.

In claim 6, line 9, "a. A" has been changed to -- a --.

In claim 6, line 11, "i." has been deleted.

In claim 6, line 15, "ii." has been deleted.

In claim 6, line 3, "an" has been changed to -- the --.

In claim 6, line 14, "vehicle." has been changed to -- vehicle, --.

Allowable Subject Matter

1. Claim 6 is allowed.

2. The following is an examiner's statement of reasons for allowance: The prior art does not specifically disclose the combination of limitations as claimed in claim 6: a wide-angled image display system for automobiles, comprising: a plurality of cameras mounted on the rear and both sides of an automobile; a display monitor mounted on the inside of the automobile into the center rearview mirror so that the images received from said cameras are projected and superimposed on the mirror surface of the center rearview mirror; a control unit with image distributor that receives the images from said cameras and generates a composite wide-angled image on said display monitor; and, a set of program logic coded and loaded into the control unit, whereby said logic: transforms images of larger vehicles behind into images of smaller vehicles in tandem, taking up the same length as the larger vehicles, before transmitting to said display monitor, when images of the larger vehicles appear from the two sides to the rear of current vehicle, disables the transformation function of the larger image to smaller image when the front of that larger image is flush with the tail end of current vehicle, or if there is any portion of overlapping in the latitudinal direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
